Contents	For fourth quarter of year 2024	For fourth quarter of year 2023	Reason

The difference in after-tax profit on the income statement has changed by 10% or more

In the fourth quarter of 2024, our company signed several large projects and is currently in the process of implementation and construction. However, these projects have not yet reached the acceptance stage. As a result, costs related to the investment in equipment, management personnel, and other expenses incurred for project execution have arisen. Therefore, the profit for Q4 2024 decreased slightly compared to the same period in Q4 2023.
